law and economics has become a central course in u s legal education and for students majoring in topics like economics political science and philosophy with the fifth edition of their best selling text cooter and ulen provide a clear introduction to economic analysis and its application to legal rules and institutions that is accessible to any student who has taken principles of microeconomics the book s structure is flexible beginning with an introductory overview of economic tools followed by paired chapters in five core areas of law property contracts torts legal process and crime students leave the course understanding how microeconomic theory can be used to critically evaluate law and public policy

providing students with a method to apply economic analysis to the study of legal rules and institutions this work uses recent advances in microeconomics to develop economic theories in four core areas of the law property contracts torts and crime the book features a discussion of the use of game theory to understand the law it also includes empirical literature on such topics as product liability medical malpractice and crime and punishment

this comprehensive textbook applies economic analysis to public law the economic analysis of law has revolutionized legal scholarship and teaching in the last half century but it has focused mostly on private law business law and criminal law this book extends the analysis to fundamental topics in public law such as the separation of government powers regulation by agencies constitutional rights and elections every public law involves six fundamental processes of government bargaining voting entrenching delegating adjudicating and enforcing the book devotes two chapters to each process beginning with the economic theory and then applying the theory to a wide range of puzzles and problems in law each chapter concentrates on cases and legal doctrine showing the relevance of economics to the work of lawyers and judges featuring lucid accessible writing and engaging examples the book addresses enduring topics in public law as well as modern controversies including gerrymandering voter identification laws and qualified immunity for police

law and economics has become a central course in u s legal education and for students majoring in topics like economics political science and philosophy cooter and ulen provide a clear introduction to economic analysis and its application to legal rules and institutions that is accessible to any student who has taken principles of microeconomics the book s structure is flexible beginning with an introductory overview of economic tools followed by paired chapters in five core areas of law property contracts torts legal process and crime students leave the course understanding how microeconomic theory can be used to critically evaluate law and public policy the full text downloaded to your computer with ebooks you can search for key concepts words and phrases make highlights and notes as you study share your notes with friends ebooks are downloaded to your computer and accessible either offline through the bookshelf available as a free download available online and also via the ipad and android apps upon purchase you ll gain instant access to this ebook time limit the ebooks products do not have an expiry date you will continue to access your digital ebook products whilst you have your bookshelf installed

law can be viewed as a body of rules and legal sanctions that channel behavior in socially desirable directions for example by encouraging individuals to take proper precautions to prevent accidents or by discouraging competitors from colluding to raise prices the incentives created by the legal system are thus a natural subject of study by economists moreover given the importance of law to the welfare of societies the economic analysis of law merits prominent treatment as a subdiscipline of

economics this two volume handbook is intended to foster the study of the legal system by economists the two volumes form a comprehensive and accessible survey of the current state of the field chapters prepared by leading specialists of the area summarizes received results as well as new developments

making amending and interpreting constitutions is a political game that can yield widespread suffering or secure a nation's liberty and prosperity given these high stakes robert cooter argues that constitutional theory should trouble itself less with literary analysis and arguments over founders intentions and focus much more on the real world consequences of various constitutional provisions and choices pooling the best available theories from economics and political science particularly those developed from game theory cooter's economic analysis of constitutions fundamentally recasts a field of growing interest and dramatic international importance by uncovering the constitutional incentives that influence citizens politicians administrators and judges cooter exposes fault lines in alternative forms of democracy unitary versus federal states deep administration versus many elections parliamentary versus presidential systems unicameral versus bicameral legislatures common versus civil law and liberty versus equality rights cooter applies an efficiency test to these alternatives asking how far they satisfy the preferences of citizens for laws and public goods to answer cooter contrasts two types of democracy which he defines as competitive government the center of the political spectrum defeats the extremes in median democracy whereas representatives of all the citizens bargain over laws and public goods in bargain democracy bargaining can realize all the gains from political trades or bargaining can collapse into an unstable contest of redistribution states plagued by instability and contests over redistribution should move towards median democracy by increasing transaction costs and reducing the power of the extremes specifically promoting median versus bargain democracy involves promoting winner take all elections versus proportional representation two parties versus multiple parties referenda versus representative democracy and special governments versus comprehensive governments this innovative theory will have ramifications felt across national and disciplinary borders and will be debated by a large audience including the growing pool of economists interested in how law and politics shape economic policy political scientists using game theory or specializing in constitutional law and academic lawyers the approach will also garner attention from students of political science law and economics as well as policy makers working in and with new democracies where constitutions are being written and refined

the central goal of this book is to provide a state of the art overview of the literature with respect to the economic analysis of tort law it sure meets the challenge offering with great expertise a comprehensive presentation of tort law in both economic and comparative perspectives the clarity of the text unusual in the law and economics literature makes the book accessible to a broad readership of economists with a limited legal background and lawyers with limited economic skills olivier moreteau louisiana state university us tort law and economics ed michael faure provides a highly useful economic overview

of the most important topics of tort law the authors clearly show the main developments of the discussion examining the results of recent studies and stating their own opinions detailed bibliographies are included the volume has to be warmly recommended to friends and foes of economic analysis who are provided with a comprehensive update in this field while also indicating areas which critics have to focus on helmut koziol european centre of tort and insurance law austria this volume provides a state of the art overview of the literature on the economic analysis of tort law in sixteen chapters the specialist authors guide the reader through the often vast literature in each domain providing a balanced and comprehensive summary particular attention is paid to the evolution of the field further refinements to economic models and relevant conclusions and lessons for the policymaker tort law and economics is part of the encyclopedia of law and economics and enables readers some not familiar with law and economics to obtain an insight in the relevant economic literature concerning tort law and economics this book will be of interest to lawyers and economists practitioners and academics interested in accident law tort law insurance and regulation it will also appeal to students in economic analysis of law and policymakers working on prevention of accidents tort law or compensation of accident victims

this title aims to explain and criticize the economic approach to law by covering economic analysis in property and criminal law to save the time of the reader not wanting to relearn multivariate calculus with each section this title provides comprehensive bibliographies and highlights major contributions in the introductions to each volume a key overview for students of economy and law to gain a broad understanding of how to approach these themes in practice

first published in 1999 routledge is an imprint of taylor francis an informa company

over the past two decades the field of law and economics has matured to the point where scholars have employed the latest economic methods in an effort to understand the nature of legal rules and to guide legal reform this book is the first to provide a broad survey of this scholarship as it has been applied to problems in torts contracts property and litigation it will therefore serve as a convenient reference guide to this exciting field

this second edition of law and economics for civil law systems substantially updates a unique work that presents the core ideas of law and economics for audiences primarily familiar with civil law systems

an intellectual history of law and economics 1793 2003 charles k rowley methodological debates in law and economics the changing contours of a discipline francesco parisi the fire of truth a remembrance of law and economics at chicago 1932 1970 edited by edmund w kitch the economic way of looking at behavior gary s becker cost choice and catallaxy an evaluation of
