this richly illustrated book details the wide ranging construction and urban planning projects launched across germany after the nazi party seized power hagen and ostergren show that it was far more than just an architectural and stylistic enterprise instead it was a series of interrelated programs intended to thoroughly reorganize germany s economic cultural and political landscapes the authors trace the specific roles of its component parts the monumental redevelopment and cleansing of cities the construction of new civic landscapes for educational athletic and leisure pursuits the improvement of transportation industrial and military infrastructures and the creation of networked landscapes of fear slave labor and genocide through distinctive examples the book draws out the ways in which combinations of place space and architecture were utilized as a cumulative means of undergirding the regime and its ambitions the authors consider how these reshaped spaces were actually experienced and perceived by ordinary germans and in some cases the world at large as the regime intentionally built a new nazi germany

exam board aqa edexcel ocr wjec level a level subject history first teaching september 2015 first exam june 2016 give your students the best chance of success with this tried and tested series combining in depth analysis engaging narrative and accessibility access to history is the most popular trusted and wide ranging series for a level history students this title supports the content and assessment requirements of the 2015 a level history specifications contains authoritative and engaging content includes thought provoking key debates that examine the opposing views and approaches of historians provides exam style questions and guidance for each relevant specification to help students understand how to apply what they have learnt this title is suitable for a variety of courses including aqa democracy and nazism germany 1918 1945

for nearly fifty years citizen airmen have served in the nation s defense as members of the air force reserve citizen airmen a history of the air force reserve 194 1994 begins with the fledgling air reserve program initiated in 1916 traces its progress through world war ii and then concentrates on the period 1946 through 1994 the study skillfully describes the process by which a loosely organized program evolved into today s impressive force the air force reserve story is told within the context of national political and military policy and stresses that over the decades as national needs have increased reservists have met the challenges initially the air force treated its reserve units as supplemental forces and equipped them with surplus equipment shortly after the air force reserve was established in 1948 its members

mobilized for korean war duty and they served throughout the conflict the reserve program subsequently fell into disarray and required patient rebuilding the passage of a series of key federal laws related to personnel issues and the introduction of the air reserve technician program greatly assisted in this rejuvenation process in the 1960s the air force reserve demonstrated its mettle as it participated in numerous mobilizations reflecting the cold war tensions of the era reservists were involved in operations ranging from the berlin crisis of 1961 1962 to the southeast asia mobilizations in 1968 in the 1970s the air force reserve program assumed heightened importance when the department of defense adopted the total force policy this concept treated the active forces the national guard and all reserve forces as an integrated force reservists were now expected to meet the same readiness standards as their active duty counterparts since then the air force reserve has demonstrated its ability to perform a wide variety of missions air reservists participated in american military operations in grenada and panama

work played a central role in nazi ideology and propaganda and even today there remain some who still emphasize the supposedly positive aspects of the regime s labor policies ignoring the horrific and inhumane conditions they produced this definitive volume provides for the first time a systematic study of the reich ministry of labor and its implementation of national socialist work doctrine in detailed and illuminating chapters contributors scrutinize political maneuvering ministerial operations relations between party and administration and individual officials actions to reveal the surprising extent to which administrative apparatuses were involved in the nazi regime and its crimes

training in the motor vehicle repair and sales sector in germany was examined in a study that included the following approaches review of the sector s structure characteristics institutional and social context employment practices trends changes in the type of work and employment training requirements and available initial and continuing vocational education and training in depth case studies of five auto repair shops and dealerships and identification of economic employment and training trends it was discovered that although the motor industry remains the most important industry in germany s economy it will not likely experience any more growth vehicle sales are declining however the volume of repairs is likely to increase as cars become older higher qualifications are being demanded of repair shop employees because of new environmental safety standards and technological advances only about 7 of the sector s employees have no relevant vocational qualification

and one in every five employees is engaged in vocational training nearly all employees in aftersales departments and repair shops participate regularly in in house continuing training and or courses provided by manufacturers importers suppliers or chambers of trades however many people in positions of responsibility within the sector still do not consider the available training activities sufficient contains 63 tables figures and 33 references mn

this title provides coverage of the 2008 edexcel as specification it charts the developments in germany from the weimar years to life in nazi germany and ultimately the fall of the third reich and includes a concluding chapter drawing together the themes of this topic
