and complete in theoretical and practical coverage the book successfully communicates
the detail necessary to understand challenge and critically evaluate financial reporting
the result gives students a strong foundation for current study and their future
professional lives

shortlisted for the conflict research society s 2021 book of the year prize shortlisted for
the british kuwait friendship society 2021 book prize after the overthrow of the qadhafi
regime in 2011 libya witnessed a dramatic breakdown of centralized power countless
local factions carved up the country into a patchwork of spheres of influence almost no
nationwide or even regional organizations emerged and no national institutions survived
the turbulent descent into renewed civil war only the leader of one armed coalition
khalifa haftar managed to overcome competitors and centralize authority over eastern
libya but tenacious resistance from armed groups in western libya blocked haftar s
attempt to seize power in the capital tripoli rarely does political fragmentation occur as
radically as in libya where it has been the primary obstacle to the re establishment of
central authority this book analyzes the forces that have shaped the country s trajectory
since 2011 confounding widely held assumptions about the role of libya s tribes in the
revolution wolfram lacher shows how war transformed local communities and explains
why khalifa haftar has been able to consolidate his sway over the northeast based on
hundreds of interviews with key actors in the conflict lacher advances an approach to the
study of civil wars that places the transformation of social ties at the centre of analysis

this book examines the crisis in ukraine tracing its development and analysing the factors
which lie behind it it discusses above all how the two sides have engaged in political

posturing accusations escalating sanctions and further escalating threats arguing that the ease with which both sides have reverted to a cold war mentality demonstrates that the cold war belief systems never really disappeared and that the hopes raised in the aftermath of the collapse of the soviet union for a new era in east west relations were misplaced the book pays special attention to the often ignored origins of the crisis within ukraine itself and the permanent damage caused by the fact that ukrainians are killing ukrainians in the eastern parts of the country it also assesses why cold war belief systems have re emerged so easily and concludes by considering the likely long term ramifications of the crisis arguing that the deep rooted lack of trust makes the possibility of compromise even harder than in the original cold war

satellite images acquired at night provide a visually arresting perspective of the earth and the human activities that light up the otherwise mostly dark earth these night time light satellite images can be compiled into a geospatial time series that represent an invaluable source of information for both the natural and social sciences night time light remote sensing has been shown to be particularly useful for a range of natural science and social science applications including studies relating to urban development demography sociology fishing activity light pollution and the consequences of civil war key sensors for these time series include the defense meteorological satellite program s operational linescan system dmsp ols and the suomi national polar orbiting partnership satellite s visible infrared imaging radiometer suite day night band suomi npp viirs dnb an increasing number of alternative sources are also available including high spatial resolution and multispectral sensors this book captures key methodological issues associated with pre processing night time light data documents state of the art analysis methods and explores a wide range of applications major sections focus on npp viirs dnb processing inter calibration between npp viirs and dmops ols applications associated with socio economic activities applications in monitoring urbanization and fishing activity monitoring the chapters in this book were originally published as a special issue of the international journal of remote sensing
