this book considers how during the unprecedented global lockdown due to the covid 19 pandemic the normal order of everyday life of the rule of law of power itself was interrupted and hence the nomos of this earth was suspended employing the term herd immunity from vaccination science and global lockdown policy as a guiding theme the book considers two central aspects of the pandemic these are the function of herding and collecting as a definition of ontology after alain badiou and the concept of immunity as a suspension of oppositional differences in the work of roberto esposito it then considers how herd immunity not only disrupts the nomos but also suspends its significance as a guiding principle of state sanctioned legal norms and perhaps permanently providing critical readings of masking social distancing compliance vulnerability bubbles immunity breathing anti vaxxers nudge theory cocooning lockdown patient zero and the many other terms that became commonplace between 2020 and 2022 the book traces a suspension of legal and social norms a manipulation of our compliance using false science and a reconfiguring of the social nomos in light of the threats of the virus in a highly original mix of contemporary and post war continental philosophy biopolitical theory set theoretical mathematics extensional logic and the most up to date science in the area it argues that lockdown was not some global biopolitical power grab but actually a weakening of power of nomos this book will appeal to scholars and others in a range of disciplinary areas with interests in the legacy of covid but especially those working in the areas of continental philosophy contemporary legal theory and biopolitics

carl schmitt one of the most influential legal and political thinkers of the twentieth century is known chiefly for his work on

international law sovereignty and his doctrine of political exception this book argues that greater prominence should be given to his early work in legal studies schmitt himself repeatedly identified as a jurist and hugo e herrera demonstrates how for schmitt law plays a key role as an intermediary between ideal conceptual theory and the complexity of practical concrete situations law is concerned precisely with balancing the extremes of theory and reality and in this respect schmitt associates it with philosophical thinking broadly as being able to understand and explain the tensions in human experience reviewing and analyzing prevailing interpretations of schmitt by jacques derrida heinrich meier and others herrera argues that the importance of schmitt s legal framework is both significant and overlooked

the aim of this book is to bring together geographers and schmitt experts who are attuned to the spatial dimensions of his work to discuss the nomos of the earth in the international law of the jus publicum europaeum schmitt 1950 2003

this is a highly original interdisciplinary study of the archaic greek word nomos and its family of words more recently used to mean simply law or law making thanos zartaloudis draws out the richness of this fundamental term by exploring its many roots and uses over the centuries the birth of nomos includes extracts from ancient sources in both the original and english translation including material from legal history philosophy philology linguistics ancient history poetry archaeology ancient musicology and anthropology through a thorough analysis of these extracts we gain a new and complete understanding of nomos and its foundational place in the western legal tradition

carl schmitt is a key figure in modern political thought but discussion of his work often focuses upon specific elements or themes within his texts this book provides a wide ranging discussion of carl schmitt s discourse and provides a new perspective on his contribution presenting the idea of nomos of the earth as the key idea that organizes his political and legal discourse this book creates a reverse genealogy of schmitt s theoretical system starting from his legal and political concept of nomos so as to reconstruct his understanding of order it connects the different topics the carl schmitt developed along his intellectual trajectory which have generally been approached in separate ways by scholars the legal theory the concept of the political the theory of international relations and political theology the text considers the whole

of carl schmitt s work including writings that have been previously unknown to the english speaking academy old journals with just three or four pages newspaper articles manuscripts of conferences and festschrifts it provides a balanced examination of the whole complex of carl schmitt s political discourse

a special issue of south atlantic quarterly

beginning in 1895 includes the proceedings of the east india association
