this is not another saga of the old west or a who done it nor is it a children s book but simply the true story of my unusual life it is as accurate honest and true as far as my memory permits i will be judged harshly for some for my actions but it is not about right or wrong or good or bad it is only about what happened and led me to develop into the person that i have become through my many adventures and what i did about them i have no intention of trying to flower it up to be more appealing it is not a fictional story i

have included situations that stick out the most in my mind and just omitted many other experiences that were interesting to me but probably not to others i have also just omitted some names of those who do not wish to be identified my intention was not to embarrass anybody else but just maybe myself it is all now just water under the bridge and i couldn t go back and change anything even if i wanted to which i don t think i would except for some very minor things that i regret since it is a true story it is r rated and not suitable for children to read no its not porn either
