this book provides a comprehensive overview of hispanic applied linguistics allowing students to understand the field from a variety of perspectives and offering insight into the ever growing number of professional opportunies afforded to spanish language program graduates the goal of this book is to re contextualize the notion of applied linguistics as simply the application of theoretical linguistic concepts to practical settings and to consider it as its own field that addresses language based issues and problems in a real world context the book is organized into five parts 1 perspectives on learning spanish 2 issues and environments in spanish teaching 3 spanish in the professions 4 the discourses of spanish and 5 social and political contexts for spanish the book s all inclusive coverage gives students the theoretical and sociocultural context for study in hispanic applied linguistics while offering

practical information on its application in the professional sector

blended language courses which combine face to face and online instruction are becoming increasingly popular due to the need for more flexible yet effective learning opportunities this book recognizes the associated opportunities and challenges for teachers and provides the rationale strategies and tools to design blended learning courses or to guide the transition from fully face to face or fully online courses to blended instruction the authors propose a framework based on four phases design build teach and evaluate which facilitates a systematic approach to course development the volume simplifies the connection between theory and practice by including examples that readers can relate to and immediately implement as they build or teach a course including case studies of successful implementations and effective instructional strategies and techniques this book is accessible even for teachers without previous experience in course design whilst also acting as a reference for more experienced language educators

for teachers of english connecting with non native students can pose significant problems but communication technologies may offer a viable solution cases on communication technology for second language acquisition and cultural learning provides educators with valuable insight into methods and opportunities for using technology to teach students learning a foreign language theoretical and pragmatic cases illustrate teaching strategies and methodologies hardware and software development administrative concerns and cross cultural considerations with respect to effective educational technologies educators and students as well as administrators and developers will use this book to improve the effectiveness of second language curricula across a variety of intercultural perspectives

online teaching and learning has surged in recent years and faculty who normally teach in face to face settings are increasingly called upon to teach blended hybrid and fully online courses best practices in online teaching and learning across academic disciplines provides insights from experienced university teachers and scholars across multiple disciplines including social sciences humanities natural sciences mathematics and professional programs such as nursing education and business administration who share innovative practices pedagogies and instructional design techniques this work highlights and features effective practical innovative and engaging best practices and approaches in online teaching and instructional design that can assist university faculty members and teachers course designers and developers and administrators invested and involved in online education using a common theme and structure each chapter is co authored by faculty members possessing a wealth of experience and credentialing in online teaching and instructional design in the relevant discipline or sub discipline chapters include best practices approaches and techniques within the discipline as well as relevant innovative and specific tools and strategies that improve student engagement and outcomes the book will appeal to faculty members and administrators in higher education teaching or designing online courses or entire online curricula as well as instructional design staff working with and training faculty readers will be especially interested to discover lessons about how contributors have successfully taught and designed courses in disciplines not typically associated with online learning such as mathematics composition writing drawing hard sciences and speech among others distributed for george mason university press
