an expert offers a guide to where we should use artificial intelligence and where we should not before we know it artificial intelligence ai will work its way into every corner of our lives making decisions about with and for us is this a good thing there's a tendency to think that machines can be more objective than humans can make better decisions about job applicants for example or risk assessments in awkward intelligence ai expert katharina zweig offers readers the inside story explaining how many levers

computer and data scientists must pull for ai s supposedly objective decision making she presents the good and the bad ai is good at processing vast quantities of data that humans cannot but it s bad at making judgments about people ai is accurate at sifting through billions of websites to offer up the best results for our search queries and it has beaten reigning champions in games of chess and go but drawing on her own research zweig shows how inaccurate ai is for example at predicting whether someone with a previous conviction will become a repeat offender it s no better than simple guesswork and yet it s used to determine people s futures zweig introduces readers to the basics of ai and presents a toolkit for designing ai systems she explains algorithms big data and computer intelligence and how they relate to one another finally she explores the ethics of ai and how we can shape the process with awkward intelligence zweig equips us to confront the biggest question concerning ai where we should use it and where we should not

in the elements of dessert renowned pastry chef francisco migoya professor at the culinary institute of america takes you on a guided tour through the innovative flavors ingredients and techniques in the thrilling world of desserts he begins with the fundamental elements such as mousses doughs and ganaches revealing in each recipe how to incorporate these building blocks into inventive unforgettable delicacies chef migoya then explores basic pastry methods and dessert and menu composition principles in 200 recipes and variations in the essential groups of pre desserts plated desserts dessert buffets passed around desserts and cakes and petits fours inspirational and instructive photographs display steps techniques and finished desserts

this book is about the creative work of chefs at top restaurants in new york and san francisco based on interviews with chefs and observation in restaurant kitchens the book explores the question of how and why chefs make choices about the dishes they put on their menus it answers this question by examining a whole range of areas including chefs careers restaurant ratings and reviews social networks how chefs think about food and go about creating new dishes and how status influences their work and careers

chefs at top restaurants face competing pressures to deliver complex and creative dishes and navigate market forces to run a profitable business in an industry with exceptionally high costs and low profit margins creating a distinctive and original culinary style allows them to stand out in the market but making the familiar food that many customers want ensures that they can stay in business chefs must make choices between these competing pressures in explaining how they do so this book uses the case study of high cuisine to analyze more generally how people in creative occupations navigate a context that is rife with uncertainty high pressures and contradicting forces

the concept of cross cultural perspectives in research in food is important in general and particularly so in relation to human perception in food and health food concepts are very different across different jurisdictions different markets and cultures have varying perspectives on what is considered a palatable acceptable or useful food or food product in simple terms one size does not at all in the majority of cases specific markets thus need targeted food design to be successful from a myriad of perspectives in this special issue anthology food health and safety in cross cultural consumer contexts we bring together articles that show the wide range of studies from fundamental to market applicability currently in focus in sensory and consumer science in food health and safety cross cultural contexts from the included perspectives it is abundantly clear that there is a need for much knowledge related to future food design linked to cross cultural contexts and that this will continue to be critical to the success of food transfer in global food markets

highly talented and creative young chef brent savage and uber sommelier nick hildebrandt are the dynamic duo behind one of sydney s hottest restaurants bentley restaurant bar in surry hills this book unveils the secrets behind brent s creations in an accessible engaging manner for the aspirational home cook apprentice chef and seasoned professional alike with step by step photography and instructions on modern cooking techniques the home cook will be turning out stunning plates with professional flare guaranteed to stun dinner guests
