monopoly over the word olympics to insist on wada code compliances the numerous instances of doping as reported go on to prove that wada is turning a blind eye to these non olympic sports this book is the first to dissect the issue of doping within non olympic sports and questions the very idea of wada compliance as a condition precedent to defining sports going on to highlight the inbuilt inequity within the existing anti doping system wherein a private regime is usurping the state s discretion the new cutting edge research book is key reading for academics and researchers in the fields of coaching sport pharmacology sport medicine sports law and the related disciplines
