An innovative investigation into how zombie narratives over the past ten years have been specifically leading up to a unique intersection with the world as it exists in the 2020s this book posits the undead as a vehicle to communicate humanity's pathway into and out of the ideological health and environmental pandemics of our time exploring depictions of zombies across literature poetry comics television film and video games Simon Bacon brings together this timely intervention into how zombies enable speculation about future modes of being in a changing world and represent the fluid notion of old and new normals with each chapter moving beyond traditional readings of the undead
